

What do the BASIX Water targets mean for me?

These are a few examples of how an average three bedroom home* can comply with the BASIX Water target. An example from each Water target zone has been used. Where relevant, examples include the use of evaporative cooling.

Note: These are examples only. Many different options are available in the BASIX tool, including the use of groundwater or recycled water.

Region	Water target	Evaporative cooling	Landscape (m ²)		Fixtures			Rainwater tank (l)	Connected to:		
			Garden	Indigenous Species	Showerhead	Toilet	Taps		Toilet	Garden irrigation	Laundry
